

VIDEOCONFERENCE

Wireless cascadable speaker-micro
for large rooms (10W/10m)

Ref.: SPE-AOC027TL

The SPE-AOC027TL speaker-microphone is the ideal video conferencing tool for your large meeting and conference rooms:

- A powerful wireless collaborative tool thanks to its Bluetooth connection and a very long battery life of 17 hours of communication
- 6 built-in omnidirectional microphones with a capture range of 10 meters
- Touch-sensitive and intuitive controls for quick and easy handling
- Suitable for large meeting rooms, it can be daisy-chained for very large spaces like conference rooms (up to 3 speakers simultaneously)
- Integrated algorithm for echo reduction, background noise suppression, and volume control
